<p>Certified Citra 4.0% PALE <u>2 AVAILABLE</u></p>		<p><i>Our second in a series of single hopped pale ales, this version is certifiably a Citra sensation.</i></p> <p><i>The sort sweet fruit flavour from the hop shines through on a light malt base that contains plenty of wheat to give this beer a rich body on which to build those zesty tropical notes.</i></p>
<p>Cwtch 4.6% RED <u>2 AVAILABLE</u></p>		<p><i>Probably the best word ever. Cwtch (rhymes with butch) can mean either cuddle or cubbyhole. Grab a glass, relax and cwtch up with this untraditional Welsh red ale - a perfect blend of six caramelly malts and three citrusy American hops. It isn't your average bitter - the hops do more to this deep amber coloured beer than just provide bite. Any old hop can do that! We've selected some of the most aromatic and tangy hops from the other side of the pond to give this red a fresh hit that complements the caramel flavours of the malts that gives this beer its colour. Drinkability and balance makes this beer. We love a good Cwtch, and were not the only ones</i></p>
<p>Dirty Stop Out 5.0% STOUT</p>		<p><i>Smoked Oat Stout</i></p> <p><i>The classic that is Dirty Stop Out is back. Brewed up with oats and smoked malts DSO delivers exactly what you'd expect, a rich creamy stout with characteristics of molasses and coffee with a smooth smoky finish.</i></p>

Thornbridge

We brewed our first beer in early 2005 after the establishment of a 10 barrel brewery in the grounds of Thornbridge Hall. Our initial focus was on a range of cask beers that used traditional recipes but provided a modern twist through the use of a wide range of hops, malts and the innovation and passion of the brewing team. Now, with over 350 industry awards and a state of the art brewery and bottling in Bakewell, we're proud to be one of the leading craft breweries in the UK. Our beer now appears worldwide; initially it was only to Italy, but now over 35 countries worldwide, including our recent addition of Brazil, sell our brilliant beer. The increase in trade both at home and abroad has led to four expansions between 2009 and today.

<p>Jaipur 5.9% PALE</p>	<p><i>We are often told "this is the beer, that got me into beer" and we are always very proud to hear this. It's usually recognised as the first UK craft IPA, and was brewed with a huge amount of US hops at a time where this was very unusual, these provide a fantastic experience of grapefruit, lemon and tropical fruit with an enticing bitterness. We balance these with a great English malt base of Low Colour Maris Otter from Norfolk that helps keep the beer light and drinkable with enough sweetness to keep it all in harmony.</i></p>

Three Brothers Brewery

What makes Three Brothers Brewing Company different? Many breweries have the ability to make great craft beer, some can make a variety of great beers but with a small pilot plant we have ability to trial and perfect our recipes to ensure we only supply our very best. Add in Kit's chemical engineering degree and our extensive range of quality control equipment, we can ensure the consistency and quality of our beers remain at the highest standard. But the real difference is in the family and their ability to adapt and innovate. Dave has worked as a mechanical engineer for a large number of years and is building a range of purpose built machinery to enhance the efficiency of the brewery. Chris has worked in catering for twenty years so understands the importance of presentation, style and fine detail, not to mention his skill as a chef for our seasonal beer and food pairing nights! It is the blend of passion, experience, innovation and style that makes the beer we produce competitively tasty, refreshingly different and always of the highest quality.
