## Abbeydale

A true Sheffield institution founded in 1996 and based in the heart of the Antiques Quarter, Abbeydale Brewery blends heritage and tradition with creativity and innovation. Our house style could typically be described as pale and hoppy, but that's not all we can do! As the beer world has evolved so have we, covering a wide range of styles and continually pushing the boundaries of what we can create. We truly believe in the power of beer as a mechanism to bring people together. As a team, we love beer in all its forms, and are committed to continually improving our collective skills, training and equipment to constantly evolve and make our beer the very best it can be.

#### Anspach & Hobday

Childhood friends Paul Anspach & Jack Hobday founded Anspach & Hobday in 2014 in the pursuit of a better beer experience. Guided by the wave of contemporary craft beer and inspired by the illustrious brewing heritage of London, Anspach & Hobday's vision is to brew and curate the best of beer and put London back at the centre of the map for beer in Europe. The Brewery and Tap is based in an Archway in Bermondsey, London. Just a stones throw from the Shard and Tower Bridge and right in the heart of the Victorian brewing quarter. For those further south of the river, their is The Pigeon-Anspach & Hobday's craft-beer in Camberwell.

London Black 4.4% STOUT	London Black is our session strength Nitro Porter that takes inspiration form our flagship beer, The Porter. Creamy, smooth and truly sessionable.  What better way to create an effortlessly drinkable dark beer than to brew it with nitro. The resulting creaminess and smooth mouthfeel balance perfectly with the subtle roasted notes of coffee and chocolate.  The beer brings together the rich history and heritage of London Porters, with the modern techniques of brewing nitro beers. The result is a beer that is easy drinking, without sacrificing its character.
Ordinary Bitter 3.4% BITTER	2 AVAILABLE  A modern interpretation of a classic Ordinary bitter, more colour but the same lightness in body and immeasurable drink ability. All that was needed to complete the beer was to perfectly balance the malt and sweetness with hop bitterness and aroma.
Hop Pickers 4.2% PALE	A light, fresh, Bavarian inspired wheat beer hopped with Mandarina Bavaria and Amarillo. All the classic characteristics of a German style wheat beer, but at a lower ABV. A light yet full flavoured wheat beer, perfect for drinking in the sun.

Established in 1993 by the Davis family, Hobsons Brewery is now a leading craft brewer in Shropshire and one of the most sustainable breweries in the UK. Based in Cleobury Mortimer, Hobsons cask ales and bottled beers are all brewed onsite using traditional brewing techniques. The primary ingredients are sourced from supply chains forged with barley growers and hop farmers within some 30 miles of the brewery. A strong commitment to quality, local sourcing and reducing the breweries carbon footprint by introducing green technologies has earned Hobsons regional and national awards - notably CAMRA Champion Beer of Britain in 2007 and SIBA's Best Green Business in 2010. Hobsons stands by a strong ethos of sustainability, community and passion for real ale.

Locally sourced Maris Otter malting barley is used to brew this beer which has become a firm favourite and permanent beer.

#### Bowness Bay

Bowness Bay Brewing has built an enviable reputation for the consistent taste and quality of our ales and lagers. We are constantly on the look out for the best ingredients and new ideas, whilst not losing sight of our customers' favourites. Our semi-automatic, four-vessel steam-heated brewhouse has the capacity to produce 30,000 litres per week. Sounds great, looks great and brews great! It also gives us the flexibility to meet the ever-increasing demand from our customers. Producing cask, keg and bottled ales and lagers, we owe the consistency of our beer to our two live strains of wet yeast: one for lager and one for ale. Carefully selected for their subtle taste profiles, they've been nurtured over several years and give our beers that delicate, soft feel in the mouth. But we have one more trick up our sleeves for the unique taste of our beers: The ultra-soft Lake District water is the secret to the exceptional smoothness of our beers.

#### Marble Beers

Brewing up a storm since 1997, Marble Brewery is a microbrewery based in the heart of Manchester, UK. We specialise in innovative cask, keg, can and bottled beer, as well as revitalising historic British styles. At the helm is Head Brewer, Joe Ince, who is leading the brewery's new range of hop forward beers, barrel ageing programme, and exciting new events. The brewery was originally housed in the rear of The Marble Arch Inn, and comprised of a four-and-a-half-barrel plant installed by Brendan Dobbin. The brewhouse was situated behind glass observation windows, where curious drinkers could view their beer being created. The fermenters and conditioning tanks were situated in the cellar below. Due to increased production, the brewery expanded in 2009 to twelve-barrel capacity, seeing production up sticks and move to a railway arch a short distance away and creating Manchester's first railway arch brewery. With no current plans to brew above 5000hl per year, we spread our production over seven fermenters, four bright beer tanks, one conditioning tank and a small but beautifully formed barrel aging program.

Oakham Ales was established in 1993 in Oakham (Rutland) - the first beer brewed was Jeffrey Hudson Bitter (JHB). In 1998 the brewery relocated to new premises in Peterborough, a 35 barrel plant being installed in the new Brewery Tap brew pub. Rapidly increasing demand meant that capacity at the Brewery Tap site was reached and in October 2006 a new 75 barrel brewery was opened in the Woodston area of Peterborough. In 2009 on another hop sourcing visit to the USA, John Bryan, our Brewing Director, discovered an exceptional new hop variety — Citra. He instantly fell in love with it and couldn't wait to brew with it. He rushed it to the UK, ensuring that Oakham Ales were the first brewery to brew a beer with 100% Citra hops. Citra is now our best selling beer. Volume has doubled in the last few years with particularly rapid growth in bottled beer production and Oakham Ales today brews over 25000 brewers barrels a year (43000 HL) of beer per year. That's more than 7m pints! We are now going through ambitious expansion works that will enable us to diversify more into

# Thornbridge

We brewed our first beer in early 2005 after the establishment of a 10 barrel brewery in the grounds of Thornbridge Hall. Our initial focus was on a range of cask beers that used traditional recipes but provided a modern twist through the use of a wide range of hops, malts and the innovation and passion of the brewing team. Now, with over 350 industry awards and a state of the art brewery and bottling in Bakewell, we're proud to be one of the leading craft breweries in the UK. Our beer now appears worldwide; initially it was only to Italy, but now over 35 countries worldwide, including our recent addition of Brazil, sell our brilliant beer. The increase in trade both at home and abroad has led to four expansions between 2009 and today.

Green Mountain 4.3% PALE	2 AVAILABLE  A beautiful hazy session IPA. We generously dry hop with Galaxy, Mosaic, Citra and Amarillo hops, creating a hugely aromatic and juicy fruit bomb. This product is vegan friendly.
Big Ozzy 5.9% PALE	We had a fantastic day with Chris from Burning Soul at our brewery in Bakewell. We created a recipe together for a brand new IPA, full of hops from America and New Zealand it packs a wallop of flavour in every mouthful; expect papaya and passionfruit on the nose with citrus and floral notes across the palate. When it came to naming a big and bold beer with a Birmingham brewery, Ozzy seemed like the perfect fit, he is the huge mechanical bull right in the heart of New Street Station.
Jaipur 5.9% PALE	We are often told "this is the beer, that got me into beer" and we are always very p proud to hear this. It's usually recognised as the first UK craft IPA, and was brewed with a huge amount of US hops at a time where this was very unusual, these provide a fantastic experience of grapefruit, lemon and tropical fruit with an enticing bitterness. We balance these with a great English malt base of Low Colour Maris Otter from Norfolk that helps keep the beer light and drinkable with enough sweetness to keep it all in harmony.
Pink Grapefruit Jaipur 5.9% PALE	Our flagship IPA, Jaipur, already brings a vibrant grapefruit character from its sixhop blend, but we wanted to take that citrus intensity a step further. By adding pink grapefruit, we're amplifying the fresh, zesty profile to create an even bolder experience. This enhancement brings a new layer of bright, tangy sweetness that perfectly complements the beer's natural hop bitterness, resulting in a refreshingly balanced and fruit-forward IPA that is bursting with character

# ■ Bitburger - 50L Keg

Without a doubt, pils (also called 'pilsner') is Germany's favourite style of beer. Fans of this style of brewing enjoy the dry, bitter flavour and light colour that is typical of the beers it produces. The name originates from the Bohemian town of Pilsen in the Czech Republic, where it was first produced in 1842, and we've been brewing this style of beer to perfection here in Bitburg since 1909. We lay claim to using the term "Pilsener" as an official designated beer style in Germany, way back in 1883.

And over the years it's grown quite popular – we're incredibly proud that Bitburger Premium Pils is a popular beer in bars throughout Germany.

# La Trappe - 20L Keg

La Trappe Trappist is genuinely brewed ale from Berkel-Enschot, The Netherlands. It has been brewed within the walls of the Abbey of Our Lady of Koningshoeven since 1884, where the Trappist monks live a life of prayer and work, in peace and quiet, away from the hustle and bustle of everyday life. La Trappe Trappist was awarded the exclusive 'Authentic Trappist Product' (ATP) label by the International Trappist Association. This label guarantees that the Trappist ale is brewed under the supervision and responsibility of the monks, within the abbey walls, and that part of the profits are donated to charity. These age-old principles are still respected to this day. The result is an ale brewed in blissful silence with a taste like no other.

La Trappe Blonde	La Trappe Blond is a medium bodied and well balanced, fruity-hoppy, blond Trappist. Best served in a branded chalice glass, with or without the sediment. Good with mussels and pasta.
